

i18n Coverage Report

Generated: 2026-06-11

Base language: English (2309 keys)

Notes

- **Keys** — total keys present in the language section (must equal EN count for 100% coverage).
- **EN placeholders** — keys whose value is identical to the English string. Includes both genuinely language-neutral values (proper nouns, "Expert", "OK", numbers, etc.) **and** keys that have not yet been translated.
- **~13–80 keys** are legitimately identical to English across all languages (proper nouns, universal terms, brand names). German has 76; French has 77 (one extra brand name); Spanish has 47; Japanese has 29; Chinese (Simplified) has 26; Korean has 13 (fewest — Korean translates nearly everything including product names other languages keep as English); Thai has 42 (includes JSON-LD genre fields and meta titles kept EN for SEO/schema.org); Polish has 63; Greek has 43 (Greek alphabet means fewer loanwords than Germanic/Romance languages — translates nav labels, mode names, and most UI terms that others keep in English); Indonesian has 75; Malay has 69 (slightly lower than Indonesian — Malay translates a few more terms like Silinder/Cylinder and Tanpa Tekaan/No Guess); Swedish has 78; Dutch has 80 (highest of the European languages — Dutch uses more English loanwords in gaming contexts: Score, Dashboard, Kanban, Quests, Duel, Expert, Beginner, Arcade, Community, Links, Contact, Desktop, Status, etc.); Esperanto has 52 (low for a constructed language — keeps brand names and schema.org fields EN, but translates most nav labels, mode names, and UI terms with proper Esperanto morphology). Any language with EN placeholders above 80 has that many keys awaiting real translation.
- Keys added in **Parts 1–5** of the DE translation pass (316 keys: SEO sections, jigsaw gallery, placeholder attributes, info/how-to pages) were given EN placeholder values in all languages except German.

Summary

Lang	Language	Keys	EN placeholders	Untranslated est.
de	German	2309	76	0

Missing Keys by Language

All 22 languages have 2309 keys (matching EN). No keys are absent — the table above tracks translation quality (EN placeholders), not structural completeness.

German (**de**) — Fully translated

76 keys legitimately share their EN value (proper nouns, universal terms).

Russian (**ru**) — Fully translated

27 keys legitimately share their EN value (brand names: CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tentaizu, Minesweeper Chess, Numbers Match; acronyms: PvP, VS; symbols: #; product titles: 2048 Hexagon, Minesweeper Rush, Vibe Coding section; empty string). All 270 previously untranslated keys were translated in the RU translation pass (2026-06-10). Note: **meta_kw_default** in EN was pre-populated with Russian SEO keywords — value correctly retained.

Greek (**el**) — Fully translated

43 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Regis Consulting), acronyms (PvP, VS), symbols (#), schema.org meta titles (kept EN for SEO), language selector data (lang_other/lang_label for Esperanto), and English loanwords standard in Greek gaming (Blog, Email, Desktop, Arcade, Backlog, Hash, Debug, Orange, Sudoku — plus empty string and the Cinco de Mayo banner). All 316 previously untranslated keys were translated in the EL translation pass (2026-06-11). Uses the Greek alphabet (ελληνικά) throughout with proper

accents; «» Greek guillemets for quoted phrases. Greek at 43 EN-identical keys is among the lowest for European languages — the Greek alphabet means fewer gaming loanwords are borrowed from English compared to Germanic or Romance languages.

Portuguese (pt) — Fully translated

47 keys legitimately share their EN value: brand names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tentaizu, Minesweeper Chess, Numbers Match), product titles, and common English loanwords standard in Brazilian Portuguese — Blog, Chat, Bot, Replay, Puzzle, Rankings, Backlog, Desktop, Hash, Links, Top, Normal, Final, Status, Sudoku, Debug — plus symbols (#, 4s, vs.) and universal terms (VS, PvP, Expert). All 293 previously untranslated keys were translated in the PT translation pass (2026-06-10). Uses Brazilian Portuguese (pt-BR) throughout.

Japanese (ja) — Fully translated

29 keys legitimately share their EN value (brand names, symbols, acronyms, and product names). All 304 previously untranslated keys were translated in the JA translation pass (2026-06-09). Note: Japanese uses 29 EN-identical keys — product names like CubeSweeper, MobiusSweeper, Hexsweeper, Nonosweeper, Worldsweeper, and Tametsi are kept in their original EN form as internationally recognized game names.

Chinese (Simplified) (zh) — Fully translated

26 keys legitimately share their EN value (brand names, symbols, abbreviations). All 301 previously untranslated keys were translated in the ZH translation pass (2026-06-09). Note: Chinese (Simplified) has the fewest EN-identical keys (26) — Chinese translations cover almost all nav labels, mode names, and terms that other languages keep as English.

Chinese (Traditional) (zh-hant) — Fully translated

26 keys legitimately share their EN value (brand names, symbols, abbreviations). All 301 previously untranslated keys were translated in the zh-hant translation pass (2026-06-09). Uses Traditional characters (繁體中文) with Taiwan/HK vocabulary throughout.

Italian (it) — Fully translated

51 keys legitimately share their EN value: brand names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tentaizu, Minesweeper Chess, Numbers Match), product titles, English loanwords standard in Italian — Game Over, Puzzle, Chat, Blog, Email, Desktop, Mobile, Backlog, Multiplayer, Sudoku, Auto, Debug, Top, Hash — plus «Standard» (identical in both languages), symbols, and universal terms (VS, PvP, Expert). All 300 previously untranslated keys were translated in the IT translation pass (2026-06-10). Uses «» Italian guillemets for quoted phrases throughout.

Korean (ko) — Fully translated

13 keys legitimately share their EN value (brand names: Tametsi, Tentaizu; acronyms: PvP, VS; symbols: #, 4s, vs.; empty string; holiday banner). All 371 previously untranslated keys were translated in the KO translation pass (2026-06-09). Note: Korean has the fewest EN-identical keys (13) of all translated languages — Korean translations cover nearly all terms including product names and mode labels that other languages keep as English.

Thai (th) — Fully translated

42 keys legitimately share their EN value: game/brand names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Tentaizu Daily, Tentaizu Easy, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, Mosaic, 2048 Hexagon), acronyms (PvP, VS), symbols (#, 4s), universal terms (Expert, Blog), company name (Regis Consulting), JSON-LD genre/platform fields (Strategy, Browser Game, Web Browser, Competitive, Logic, Brain Teaser, Multiplayer — kept EN for schema.org compatibility), meta title strings (kept EN for SEO), and the Cinco de Mayo banner. All 340 previously untranslated keys were translated in the TH translation pass (2026-06-10). Uses Thai script (ภาษาไทย) throughout.

Malay (ms) — Fully translated

69 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Mosaic, Regis Consulting), acronyms (PvP, VS), symbols (#, 4s), schema.org meta titles (kept EN for SEO), language selector data (lang_other/lang_label for Esperanto), and English loanwords standard in Malay (Duel, Normal, Standard, Toroid, Grid, Blog, Replay, Email, Desktop, Hash, Status, Final, Auto, Debug, Backlog, Sudoku, Starfield, Top, VS Bot — all widely used in Malaysian tech/gaming contexts) plus the Cinco de Mayo banner, cultural theme name, empty string, and web archive link. All 318 previously untranslated keys were translated in the MS translation pass (2026-06-11). Uses Bahasa Malaysia throughout; meta_kw_default and meta_kw_about replaced with Malay SEO keywords (were incorrectly holding Russian placeholder values). nav_cylinder translated to Silinder; game_no_guess_btn translated to Tanpa Tekaan.

Hindi (hi) — Fully translated

48 keys legitimately share their EN value: 13 meta_kw_* SEO keyword strings (kept in EN for search indexing on this English-primary domain), brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tentaizu, Minesweeper Chess, Numbers Match), product page titles, language codes (lang_label/lang_other for Esperanto), section headings (Arcade, Mosaic, Minesweeper Rush, Vibe Coding), theme name (Starfield), and symbols. All 314 previously untranslated keys were translated in the HI translation pass (2026-06-10). Uses Devanagari script throughout.

Indonesian (id) — Fully translated

75 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Regis Consulting), acronyms (PvP, VS), symbols (#, 4s), schema.org/JSON-LD fields, meta title strings (kept EN for SEO), language selector data (lang_other/lang_label for Esperanto), and English loanwords standard in Indonesian (Mode, Normal, Standard, Cylinder, Toroid, Level, Radius, Blog, Replay, Email, Desktop, Generator, Status, Final, Hash, Debug, Backlog, Orange, Top, Quests, Duel — all widely used in Indonesian tech/gaming contexts). All 315 previously untranslated keys were translated in the ID translation pass (2026-06-11). Uses Bahasa Indonesia throughout; meta_kw_default and meta_kw_about replaced with Indonesian SEO keywords (were incorrectly holding Russian placeholder values). One double-escaping issue in seo_cust_density_p2 fixed post-run via _fix_id_quotes.py.

Ukrainian (uk) — Fully translated

24 keys legitimately share their EN value (brand names: CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tentaizu, Numbers Match, Minesweeper Rush, Vibe Coding; product title: 2048 Hexagon; acronym: PvP; symbol: #; empty string; holiday banner; company name). All 316 previously untranslated keys were translated in the UK translation pass (2026-06-10). Uses «» Ukrainian guillemets for quoted phrases throughout.

Swedish (sv) — Fully translated

78 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Regis Consulting), acronyms (PvP, VS), symbols (#, ✖), game-mode terms identical in Swedish (Standard, Cylinder, Toroid, Expert, Normal, Max, Generator, Community, Status, Match, Auto, Session, Hash, Debug, Sudoku — all standard Swedish gaming/tech loanwords), schema.org/JSON-LD genre fields, meta title strings (kept EN for SEO), language selector data (lang_other/lang_label for Esperanto), proper event names (FIFA World Cup), and empty string. All 318 previously untranslated keys were translated in the SV translation pass (2026-06-11). Uses Swedish diacritics (å, ä, ö) throughout; meta_kw_default and meta_kw_about replaced with Swedish SEO keywords (were incorrectly holding Russian placeholder values).

Esperanto (eo) — Fully translated

52 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Minesweeper Duel, Minesweeper Rush, Mosaic, 2048 Hexagon, Regis Consulting, Lady Di's Mines), acronyms (PvP, VS), symbols (#), schema.org/JSON-LD genre fields (Strategy, Browser Game, Web Browser, Competitive, Logic, Brain Teaser, Multiplayer — kept EN for schema.org), meta title and keyword strings (kept EN for SEO), English loanwords natural in Esperanto (Blog, Standard), cultural names (Cinco de Mayo banner), and empty string. All 345 previously untranslated keys were translated in the EO translation pass (2026-06-11). Uses Esperanto diacritics (ĉ, ĝ, ĥ, ĵ, ŝ, ŭ) throughout; correct Esperanto grammar with -o nouns, -a adjectives, -i infinitives. Key vocab: minoj (mines), flagoj (flags), tabulero (board), ĉeloj (cells), malkovri (reveal), sen-divena (no-guess), ĉiutaga (daily), solvebla (solvable). Difficulty: Komencanto/Meza/Sperta.

Pig Latin (pgl) — ~312 keys need translation

Dutch (nl) — Fully translated

80 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Regis Consulting), acronyms (PvP, VS), symbols (#, vs.), schema.org/JSON-LD genre fields, meta title strings and SEO keyword sets, difficulty levels (Beginner, Expert — kept in EN in Dutch gaming), and English loanwords standard in Dutch (Score, Dashboard, Kanban Board, Backlog, Review, Quests, Duel, Contact, Chat, Blog, Links, Community, Arcade, Generator, Desktop, Status, Max, Toroid, Debug, Sudoku, etc.) plus the Cinco de Mayo banner, cultural theme name, and empty string. All 325 previously untranslated keys were translated in the NL translation pass (2026-06-11). Dutch naturally adopts many English gaming and technical terms; 80 EN-identical keys is the highest European-language baseline on this site.

Polish (pl) — Fully translated

63 keys legitimately share their EN value: brand/product names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, 2048 Hexagon, Regis Consulting), acronyms (PvP, VS), symbols (#, vs.), JSON-LD genre/platform fields (kept EN for schema.org), meta title strings and SEO keyword sets (kept EN for SEO), and words identical in Polish usage (Generator, Status, Sudoku, Blog, Auto, Arcade, Restart, Expert, Toroid, Top, Hash, Debug) plus the Cinco de Mayo banner and empty string. All 342 previously untranslated keys were translated in the PL translation pass (2026-06-11). Uses Polish diacritics (ą ć ę ł ń ó ś ź ż) throughout; „" Polish guillemets for quoted phrases.

Spanish (es) — Fully translated

47 keys legitimately share their EN value (brand names, symbols, universal loanwords). All 325 previously untranslated keys were translated in the ES translation pass (2026-06-09). Note: Spanish uses 47 EN-identical keys vs. DE's 76 because ES translations cover more terms (e.g., "Más", "Clasificación", "Modo") that DE/FR keep as English loanwords.

French (fr) — Fully translated

77 keys legitimately share their EN value (proper nouns, universal terms, brand names). All 361 previously untranslated keys were translated in the FR translation pass (2026-06-09).

Tagalog (tl) — Fully translated

98 keys legitimately share their EN value: game/brand names (CubeSweeper, Hexsweeper, MobiusSweeper, Nonosweeper, Worldsweeper, Tametsi, Tametsi Hex, Tentaizu, Tentaizu Easy, Minesweeper Chess, Numbers Match, Minesweeper Rush, Vibe Coding, Mosaic, Mosaic Easy, 2048 Hexagon, 2048 Classic, Regis Consulting), acronyms (PvP, VS), symbols (#, 4s, vs.), common English loanwords in Filipino (Blog, Chat, Email, Dashboard, Backlog, Leaderboard, Puzzle, Grid, Mode, Normal, Expert, Random, Auto, Desktop, Mobile, Radius, Generator, Arcade, Gallery, Season, Classic, Fiesta — all naturally used in Filipino), JSON-LD genre/platform fields (kept EN for schema.org), meta title strings (kept EN for SEO), plus official names (FIFA World Cup, Schulte Grid, Dodecahedron) and tech strings (Hosting: AWS, Chording, Left-click, Right-click). All 347 previously untranslated keys were translated in the TL translation pass (2026-06-11). Uses Filipino (Tagalog) throughout; English loanwords retained where natural per Filipino language norms.
