Priority Recommendations

P1 — Affects every language, high player-facing impact

- `mj_*` — Mahjong Solitaire UI strings (game currently shows English fallback in all non-English locales)

- **t2k_*** — 2048 game UI
- **nn_*** — Numbers Match game
- **quest_*** / **quests_*** — Quests/achievements system
- **game_*** **gaps** — Stats labels (3BV, efficiency, share link) shown in-game

P2 — Content/SEO, affects all languages

- **fp_*** — 15 Puzzle full how-to and generator (72 keys)
- **ws_*** — Worldsweeper game (37 keys)
- **banner_*** — Seasonal banners (5 keys, simple)
- **meta_*** **gaps** — SEO tags for Sudoku, PvP, Cylinder/Toroid/Worldsweeper, Board Generator

P3 — Affects a subset of languages

- **tz_strategy_*** — Tentaizu strategy guide (52 keys; missing from 16 langs)
- **t2kh_*** / **t2khex_*** — 2048 Hexagon (48 keys combined; missing from 16 langs)
- **ms_*** — Minesweeper how-to (114 keys; missing from eo, th, pgl, zh-hant, pl, tl)
- **tz_landing_*** — Tentaizu landing content (24 keys; missing from 10 langs)

P4 — Lower traffic / niche

- **rush_*** how-to guide (missing only from pgl, zh-hant)
- **jgen_*** jigsaw generator (missing from th, pgl, zh-hant, pl, tl)
- **links_*** links page
- **err403_*** / **err404_*** error pages

Notes

- **Dutch (nl)** is the most complete language at 91.7% — it was written most recently and captures features the other languages predate.
- **Pig Latin (pgl)** and **Traditional Chinese (zh-hant)** have the largest gaps, also missing **rush_*** and several older feature groups.
- The **tmt_*** keys (Tametsi page) were added to all 18 languages on 2026-05-29 and are not reflected as gaps.
